Folklore

I met Harry Wragg in Ludlow and we were chatting about the weather. He referred to the saying that if **“the oak is out before the ash we are going to get a splash, if the ash is out before the oak we are going to get a soak.”** I disagreed as I think that the ash is always after the oak. “we’ll see who is right this year” he said. So he thinks we shall get a dry summer. We may but I don’t think it’s anything to do with trees!

I look forward to receiving your responses. Eva
